## CAREER OBJECTIVE

Motivated entry-level software developer with skills in Python, Java, and Full Stack Web Development, seeking a Software Developer role to apply technical and problem-solving skills.

## EDUCATION DETAILS

| Qualification      | Institution                                                        | Board/University           | Year of passing | Aggregate/Percentage                |
|--------------------|--------------------------------------------------------------------|----------------------------|-----------------|-------------------------------------|
| MCA                | Swarnandhra College of Engineering and Technology, Seetharampuram. | JNTUK                      | 2024-2026       | 7.81(CGPA) till 3 <sup>RD</sup> Sem |
| Bsc(mpcs)          | Sri Surya Degree College,Narsapur                                  | Adikavi Nannaya University | 2021-2024       | 8.39(CGPA)                          |
| Intermediate (MPC) | Sri Surya Junior College, Narsapur.                                | Board of Intermediate      | 2019-2021       | 887 marks                           |
| S. S. C            | Viveka English Medium High School, Mogaltur                        | SSC                        | 2019            | 9.7(CGPA)                           |

## TECHNICAL SKILLS

- **Programming Languages:** C ,Python, Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Machine Learning:** Decision Tree, Random Forest, Logistic Regression
- **Frameworks:** React.js, Node.js, Express.js, Django
- **Database:** MongoDB, SQL (Basics)
- **Tools:** Git, GitHub, VS Code
- **Concepts:** OOP, REST APIs, Full Stack Development

## CERTIFICATIONS AND PARTICIPATIONS

- MongoDB Node.js Developer Path – MongoDB University (Jun 2025)
- Full Stack Development – APSCHE & SmartBridge (Jul 2025)
- Python Foundation & Technology Stack – Infosys Springboard (Jul 2025)
- Build Your First Chatbot – IBM SkillsBuild (May 2025)
- AI Literacy – IBM SkillsBuild (Jan 2026)
- Completed Java Programming for Beginners certification – Simplilearn SkillUp(2026)
- TCS iON Career Edge Certifications – IT Primer & Young Professional (2026)
- Communication Skills Training (Email Etiquette, Group Discussion, Telephone Etiquette) – TCS iON (2026)
- Full Stack Development – APSCHE & SmartBridge (Jul 2025, Internship)
- Full Stack Development – APSCHE & SmartBridge (Mar 2026, Internship)
- Infosys Springboard – Internship 6.0 (Digital Banking Interface) (Jan 2026)

## STRENGTHS

- Hardworking
- Positive thinking
- Time Management
- Commitment

## PROJECTS and INTERNSHIPS

### Smartphone Addiction Prediction (ML Project)

- Created a machine learning model to predict smartphone addiction.
- Used survey data about phone usage and stress levels.
- Applied Decision Tree, Random Forest, and Logistic Regression algorithms.
- Achieved good accuracy in addiction prediction.

### Automated Research Paper Search & Summarization

- Built a Python-based system to search and summarize research papers
- Integrated **Groq LLaMA API** for fast AI summarization
- Reduced manual reading time by generating quick insights

### Full Stack Food Ordering Application (MERN Stack)

- Developed a responsive food ordering web app using **React, Node.js, Express, MongoDB**
- Implemented user authentication, cart management, and order tracking

- Improved user experience with dynamic UI components

### **Bid Beyond – The Global Auction Exchange**

- Developed a full-stack online auction platform using **Spring Boot** and **React.js**.
- Implemented real-time bidding with automated auction expiry and highest-bid winner selection logic.
- Designed role-based access control for Admin, Seller, Customer, and Delivery roles.
- Built secure authentication and RESTful APIs for seamless frontend-backend communication Integrated MySQL database to ensure secure transactions and efficient auction management.

### **Project: DocSpot –Doctor Appointment Booking System**

- Developed a healthcare appointment booking web application using MERN stack
- Implemented user registration and login with JWT authentication
- Created REST APIs for managing users and appointments
- Built doctor search and appointment booking functionality
- Designed responsive UI using React.js
- Used MongoDB for storing user and appointment data

### **Unified Digital Banking Interface (FastAPI)**

Developed a digital banking backend using FastAPI with role-based access control Admin, User, Auditor, and Support roles

- Built RESTful APIs to handle user authentication, KYC verification, account management, and transaction processing in a structured and scalable way.
- Implemented secure login and authorization using JWT to protect user data and ensure safe access to the system.
- Designed a role-based access control (RBAC) system to manage permissions for different user roles and restrict unauthorized actions.
- Developed admin functionalities to monitor registered users, track KYC status, and view system logs for better control and security.
- Used SQLAlchemy for efficient database interactions and Pydantic for data validation to ensure reliability and consistency.
